— As Tente Antalya —

An aesthetic touch to outdoor spaces...

As Tente, based in Antalya, has been operating in the awning and outdoor systems industry for over 12 years. With innovative solutions developed in our own production facility, we meticulously manage the entire process – from manufacturing to end-user delivery – with our professional team. By offering integrated production, installation, and after-sales support, we have established a reliable business model that instills trust in our customers.

Standing out in the industry with a vision of delivering both economical and high-quality products, our company has successfully completed numerous projects and has become a trusted brand on both regional and national levels. Committed to quality without compromise, As Tente continues to add value to open spaces with modern and aesthetic solutions.

Pergola

Pergola systems offer innovative solutions that provide both protection and aesthetic appeal in outdoor spaces. At As Tente Antalya, our pergola installations are designed to shield areas such as terraces, gardens, restaurants, and cafés from the sun and rain, while also adding a modern touch to the overall atmosphere.

Bioclimatic Pergola

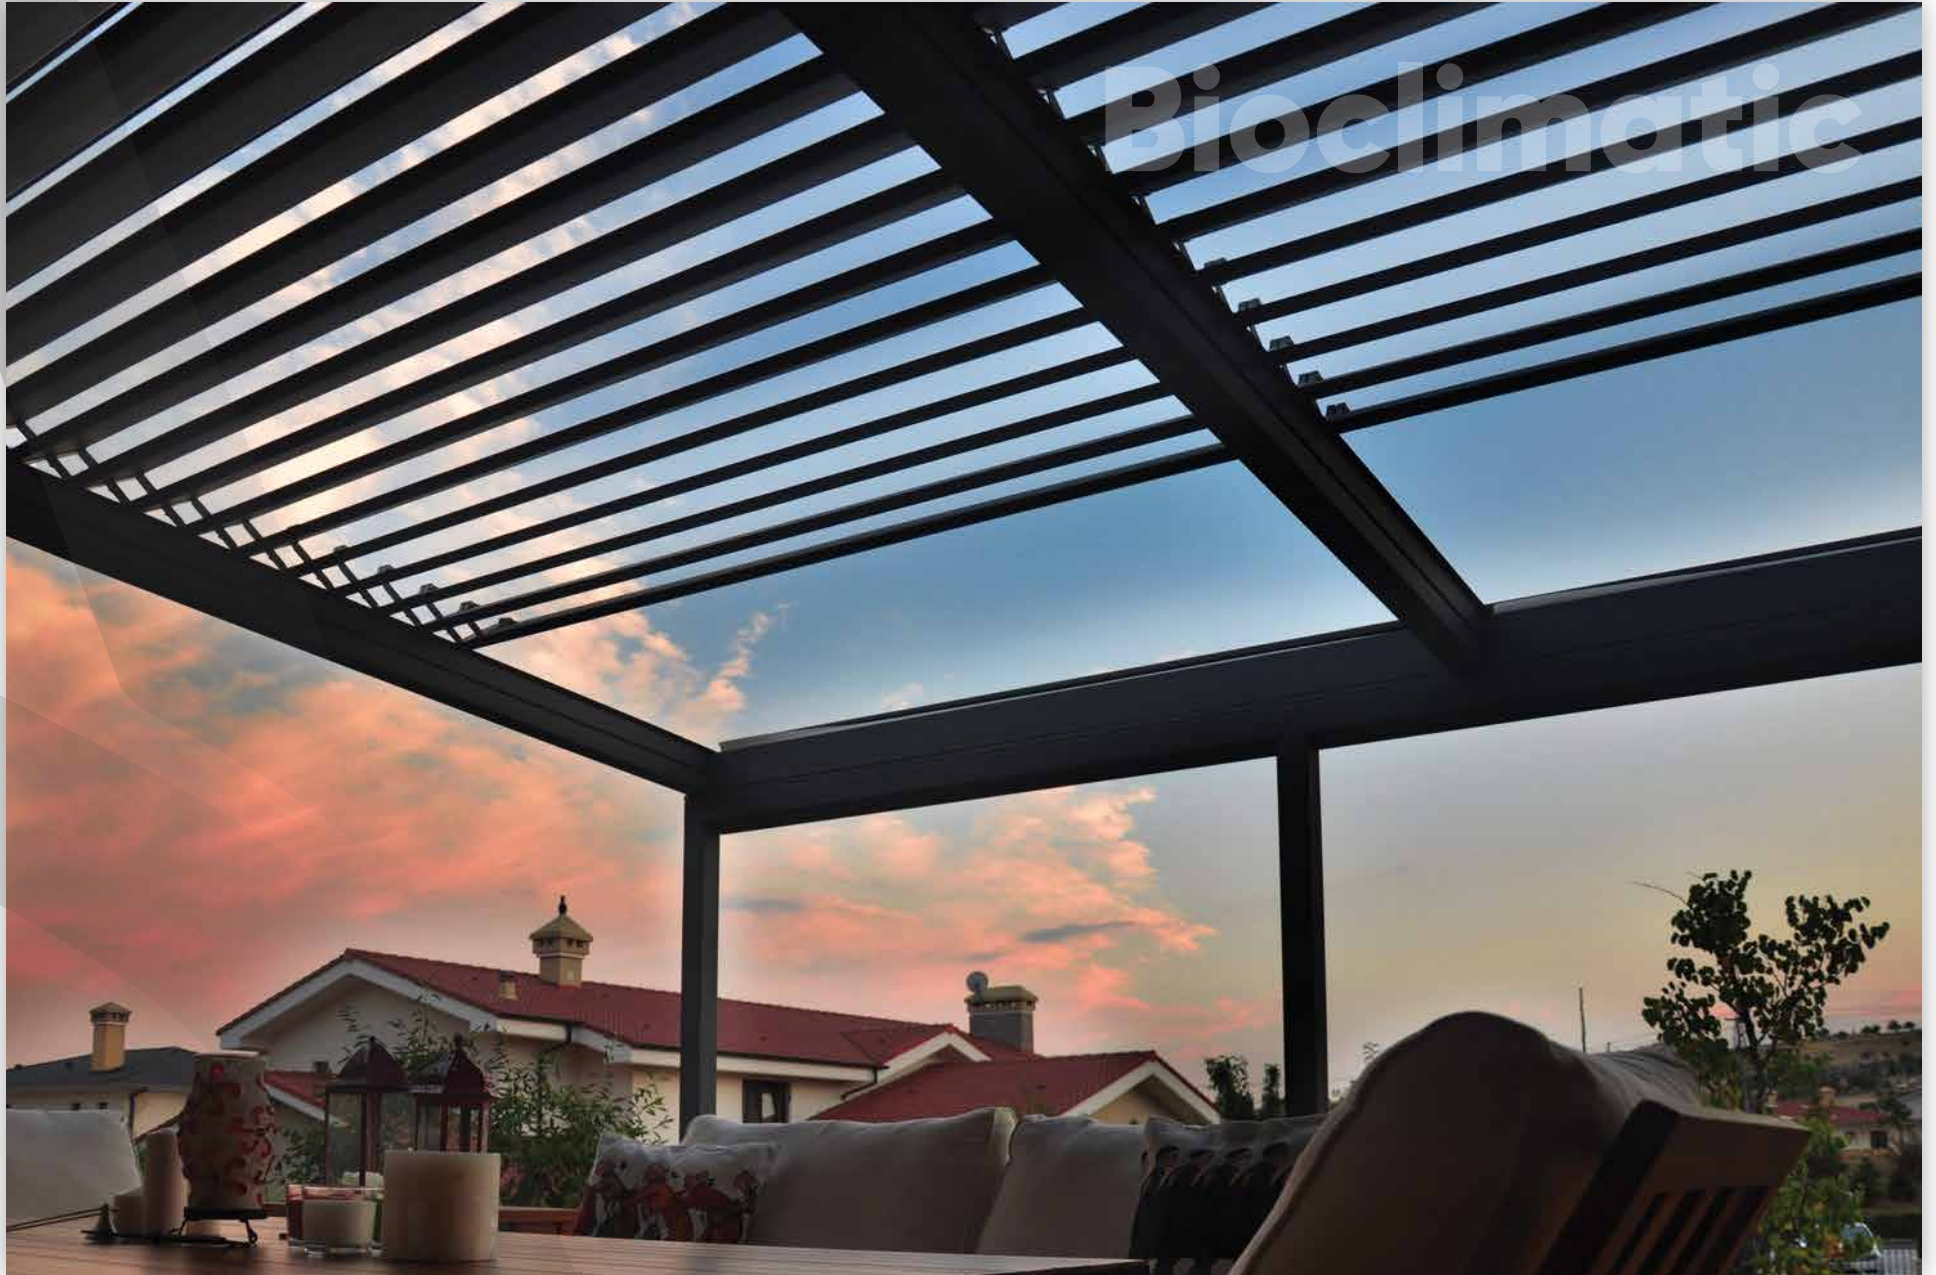

At As Tente Antalya, with over 12 years of experience, we transform your outdoor areas into comfortable living spaces for all seasons through our bioclimatic pergola systems. These systems offer ideal solutions for restaurants, cafés, hotels, villas, and gardens by allowing you to control sunlight, ensure natural ventilation, and provide full protection against rain. With their modern design and clean lines, bioclimatic pergolas combine functionality and aesthetics, adding both comfort and visual appeal to any space.

Winter Garden

Winter garden systems enhance living comfort by making outdoor spaces usable throughout the year. At As Tente Antalya, our winter garden solutions transform balconies, terraces, and gardens into enclosed yet spacious areas. With their transparent design that allows natural light in, these spaces remain bright, while the insulated structure ensures warmth and comfort during colder seasons.

Accordion Awning

Accordion awning systems are standout shading solutions known for their nostalgic appearance and practical use. At As Tente Antalya, our accordion awnings offer decorative solutions especially suited for windows, balconies, and storefronts. Thanks to their adjustable slope, they can be easily directed according to the angle of the sun, providing effective protection throughout the year.

Retractable Arm Awning

Retractable arm awning systems are among the most preferred shading solutions in both residential and commercial settings, thanks to their practical design and aesthetic appearance. At As Tente Antalya, our retractable arm awnings provide easy sun protection by shading the desired area with their open-close mechanism. Commonly used in cafés, restaurants, terraces, and storefronts, these systems help maximize the efficient use of space.

Glass Roof

As Tente Antalya offers both comfort and elegance with glass roof systems that have become an essential feature of modern living spaces. Our glass roof solutions add a touch of sophistication to open areas such as cafés, restaurants, terraces, verandas, and gardens, while providing a usable environment all year round. Even over wide spans, these systems offer an uninterrupted view and maximize natural light intake into your space.

Ceiling Curtain

Ceiling curtain systems offer both an aesthetic appearance and an effective shading solution for open spaces. At As Tente Antalya, these systems are widely preferred in areas such as pergolas, glass roofs, and winter gardens – whether fully or partially open. With ceiling curtains, sunlight can be controlled as desired, bringing a fresh and elegant atmosphere to the space.

Guillotine

Guillotine glass systems stand out as a stylish and functional solution, especially in areas like restaurants, cafés, and terraces. At As Tente Antalya, our motorized guillotine glass systems offer great convenience with their up-and-down movement mechanism. Moreover, these systems allow the space to be quickly opened or closed depending on weather conditions.

Double-Glazed Sliding System

Double-glazed sliding systems offer modern solutions that enhance energy efficiency in both residential and commercial spaces. At As Tente Antalya, these systems help maximize indoor comfort by effectively preventing heat and cold transfer. Thanks to their large glass surfaces, they allow maximum natural light to enter the space while providing an uninterrupted view of the outdoors.

Wind Breaker System

Wind breaker systems provide both comfort and safety by minimizing the negative effects of wind in open and semi-open areas. At As Tente Antalya, our wind breaker solutions offer transparent protection for cafés, restaurants, balconies, terraces, and gardens – adding functionality without compromising the spacious feel of the space. They ensure ease of use in both summer and winter seasons.

Glass Balcony System

Glass balcony systems are one of the most modern ways to make open spaces more functional. At As Tente Antalya, our glass balcony installations protect your balconies from external elements such as wind, rain, and dust, while also adding a transparent and elegant aesthetic to your space. Especially in sunny cities like Antalya, glass balconies offer a comfortable and versatile living area throughout most of the year.

Automatic Sliding Door (Photocell Door)

At As Tente Antalya, we enhance entryways with photocell door systems that add both comfort and elegance to modern structures. These automatic sensor-operated systems simplify foot traffic by opening and closing hands-free, offering both hygiene and convenience. Ideal for high-traffic areas, photocell doors are also favored for their energy-saving benefits.

Aluminum Beach Shade System

At As Tente Antalya, we stand out with our aluminum beach shade systems that combine comfort and aesthetics in coastal areas. These systems minimize the impact of sunlight and add elegance to seaside spaces, while the lightness and durability of aluminum ensure long-lasting use, just like on the first day. Supported by UV-protected fabrics, the shades offer beachgoers a comfortable and relaxing environment.

Center Pole Umbrella

Center pole umbrella systems are among the most preferred shading solutions in open spaces due to their practical use and strong coverage capacity. At As Tente Antalya, our umbrella systems combine comfort and elegance, especially in cafés, hotel gardens, poolside areas, and private residential spaces. With their easy setup and portable structure, they offer flexibility in any environment.

Aluminum Carport System

At As Tente Antalya, our aluminum carport systems combine durability with aesthetic appeal to provide secure protection for your vehicles. Produced with high-quality aluminum profiles, these systems offer superior resistance to all weather conditions. They shield against harmful UV rays, heavy rain, and hail, while their long-lasting structure also provides a cost-effective solution.

Aluminum Glass Joinery System

The aluminum glass joinery systems we offer at As Tente Antalya are essential elements of modern architecture. Combining aesthetic appeal with high durability, these systems bring together elegance and functionality in both residential and commercial buildings. Offering excellent performance in thermal and sound insulation, aluminum joinery stands out for its long-lasting use.

Greenhouse

At As Tente Antalya, we offer greenhouse system solutions aimed at enhancing agricultural productivity. Our greenhouses, built with aluminum and galvanized steel structures, deliver exceptional durability and climate control performance. Designed specifically to suit Antalya's climate conditions, these systems provide farmers with the opportunity for uninterrupted cultivation year-round.

Football Field & Tennis Court

As As Tente, a provider of professional awning solutions in Antalya, we offer specialized covering and shading systems for mini football fields and tennis courts. By creating year-round usable structures, we prioritize the comfort of both players and facility operators. Our systems are designed with UV-resistant, waterproof, and breathable fabrics, ensuring durability even in harsh weather conditions.
